- Location: Bang Yai, Nonthaburi 11140

Technical Skills

AI & Agent Tools
Model Context Protocol (MCP API), Claude Code, Codex, Antigravity, Stitch, Microsoft Copilot, Copilot Studio, Prompt Engineering

Programming & Web
Python, TypeScript, JavaScript (ES6+), Next.js, React, FastAPI, Node.js, SQL (MySQL), REST APIs, Git/GitHub, C++, Java

DevOps, QA & Automation
Docker (Compose, Nginx), Apache JMeter, Google Apps Script, n8n, Power Automate, Obsidian, Draw.io, Excel VBA

Data & Quality Engineering
Power BI (SAP Pipelines & DAX), Looker Studio, Cpk Analysis, Control Charts (SPC)

Certifications

- Gemini Certification for Educators (Google)

Language

- Thai - Native
- English - Intermediate

THAMAWUT DEJAROENVIROON

AI Solution & Process Automation Engineer (Full-Stack & BI)

Portfolio: fordhandsome.github.io/Achievement | GitHub: Fordhandsome

Education

King Mongkut's University of Technology North Bangkok (KMUTNB)
Bachelor of Engineering in Chemical Engineering
Second-Class Honors | GPA: 3.35

Thai-German Pre-Engineering School KMUTNB
Vocational Certificate: Electrical and Electronics
GPA: 3.00

Work Experience

Haco Electric (Thailand) Co., Ltd.

AI Solution & Automation Specialist — Dec 2025 - Present

- **SOP Generator, Revision & Digital Stamp Portal**
  Built an internal web portal (Next.js, TypeScript, FastAPI) to create, edit/revise, audit (3 signature and stamp SOP PDFs; load-tested for 100 concurrent users (0% error) via Apache JMeter.
- **Internal Web Tools, Barcode Stock & Docker Packaging**
  Developed a Haco P&C Barcode Requisition & Stock system (React, Node.js, MySQL) with real-t stock locks & e-signatures, a Business Card OCR Scanner (Google Apps Script), and Docker set
- **Enterprise Integration via MCP & Executive Sales AI Assistant**
  Connected AI tools (Claude Code, Codex, Antigravity, Stitch) to internal databases via MCP API & REST APIs, and built an AI assistant for executives to summarize real-time sales data.
- **Business Intelligence (SAP to Power BI)**
  Automated sales data preparation from SAP and built Power BI dashboards for Multi-Year Sales (2025 vs 2026), Smart Life, Project, and Inventory monitoring.
- **Corporate AI Enablement & Microsoft Teams Room Setup**
  Conducted 3 internal training sessions on Microsoft Copilot & prompt engineering, and configured the Microsoft Teams conference room hardware/AV with automated room booking.

QV TEST COMPANY LIMITED

Document Report (Contract) — Jul 2025 - Oct 2025

- Created Excel automation with VBA and reduced report preparation time by 70%.
- Automated record keeping and used AI prompts to write and validate scripts faster.

Chinpoon Electronics (Thailand) Public Company Limited

QE Engineer — 2024 - 2025

- Created real-time quality monitoring using Cpk analysis and Control Charts to detect process drift.
- Reviewed customer quality requirements and improved team data accuracy by 30%.

Engineering Foundation Applied to Enterprise IT Systems

- Process Design -> Software Workflows: Applies Chemical Engineering process flow design (PFD) to build structured state machines (SOP Create -> Edit/Revision -> 3-Signature Audit) and stock reservation locks
- Statistical QA -> System Reliability: Applies Cpk/SPC discipline to SAP/Power BI data integrity & JMeter l
- Electrical & Electronics -> Hardware/IT Ops: Hands-on integration of barcode scanners, conference room
