- Gemini Certification for Educators (Google)

Language

- Thai - Native
- English - Intermediate

THAMAWUT DEJAROENVIROON

AI Solution & Process Automation Engineer

Education

King Mongkut's University of Technology North Bangkok
Bachelor of Engineering in Chemical Engineering
Second-Class Honors | GPA: 3.35

Thai-German Pre-Engineering School KMUTNB
Vocational Certificate: Electrical and Electronics
GPA: 3.00

Work Experience

Haco Electric (Thailand) Co., Ltd.

AI Solution & Automation Specialist — Dec 2025 - Present

Executive Sales AI Assistant (CEO)
Built an AI assistant for executives to summarize sales data in real time and support business decisions.

SOP Generator (AI-Powered)
Built an AI-based system to create and standardize SOP documents faster.

Enterprise Integration via MCP
Connected AI tools to internal databases using MCP API and REST APIs. Worked with Codex, Antigravity, Claude Code, and Stitch.

Internal Tools & Automation
Developed internal web tools with Next.js and Node.js. Also built a Business Card Scanner with Google Apps Script, a Haco P&C Stock tracking system, and automated room booking in Microsoft Teams.

Business Intelligence
Automated sales data preparation and created Power BI dashboards for business reporting.

Corporate AI Enablement
Prepared training materials and conducted 3 internal training sessions on Microsoft Copilot and prompt engineering.

QV TEST COMPANY LIMITED

Document Report (Contract) — Jul 2025 - Oct 2025

- Created Excel automation with VBA and reduced report preparation time by 70%.
- Automated record keeping and used AI prompts to help write scripts faster.

Chinpoon Electronics (Thailand) Public Company Limited

QE Engineer — 2024 - 2025

- Created real-time quality monitoring using Cpk analysis and Control Charts to find process changes.
- Reviewed customer quality requirements and improved team data accuracy by 30%.
